1. This license is given subject to the provisions of the Indian Explosives Act (IV of 1884) and the rules thereunder.

2. The explosive shall be kept in a substantially constructed uninflammable building approved by such officer as the Local Government may prescribe, or in a fire-proof safe separated from any dwelling-house, highway, street, public thoroughfare, or public place by the prescribed distances,* and made and closed so as to prevent unauthorized persons having access thereto, and to secure it from danger from without:

Provided that 50 lbs. of gunpowder, or in lieu of each pound of gunpowder not so kept, 2 lbs. of explosive contained in ammunition of the 1st division of class 6, or an equivalent quantity of explosive of the 7th (firework) class may be kept inside a dwelling-house or in any building other than as last aforesaid, in a receptacle exclusively appropriated to keeping explosive:

3. All articles or substances of an explosive or highly inflammable nature shall be kept at a safe distance from the explosive and from any room or part of a building, fire-proof safe, or receptacle containing the same, and no one entering such room or part of any building or such safe or receptacle shall have any iron or steel in their possession, or attached to or on their boots or shoes.
